

mirabal* Engineering Receives Prestigious 2024 ACEC New York Platinum Award

New York, NY, November 7, 2023 – **mirabal***, in joint venture, has been honored with the prestigious **2024 ACEC New York Platinum Award in the category of Special Projects**. This accolade, announced in the 2024 Engineering Excellence Awards Competition, recognizes our team's exemplary work in **QED991 REI Services for the Installation of New Trunk Mains & Distribution Water Mains in the 33rd Ave. Area, Queens, NY**.

The selection process involved a panel of distinguished judges, including Catherine Sheridan, Carlo Scissura, David Gottfried, Angelena Edwards, and Stephanie Winkelhake, who acknowledged the exceptional expertise and ingenuity demonstrated in the project. The award, a testament to the innovative and high-quality engineering solutions provided by MIRABAL Engineering, will be formally presented at a black-tie gala on April 13, 2024, at the Hilton Midtown in New York City.

A pivotal element in our success was the early identification of crucial project aspects, made possible through the strategic foresight and technical acumen of Antonio Mirabal, PE, President and Founder of **mirabal***. His comprehensive oversight, evident in the meticulous preparation of the winning proposal, extended to providing continuous on-site technical advice from the onset to the closeout of the project. Mr. Mirabal's proactive and hands-on involvement ensured that the project's objectives were seamlessly aligned with practical execution, culminating in its successful completion. Reflecting on this achievement, Mr. Mirabal stated, "Receiving the ACEC New York Platinum Award resonates deeply with our company's philosophy. This award underscores the outstanding technical expertise and creative solutions our team brings to every project. Our success in this project is also a direct result of our commitment to innovation, clearly defined goals, and a steadfast plan of action. It is not just a recognition of our past achievements but a testament to our ongoing commitment to these principles and to engineering excellence."

As we envision the future, this award unlocks new opportunities for **mirabal***. It positions the firm favorably for new collaborations and projects, enhancing the company's reputation in the industry as a leader in executing complex engineering projects. This recognition is anticipated to attract new clients and partnerships, further solidifying **mirabal***'s standing as a leader in civil engineering innovation.

"We are immensely proud to receive this honor from ACEC New York," continued Mr. Mirabal. "This award not only reflects our dedication to superior infrastructure development improving the quality of life of our communities but also opens doors for future projects that align with our mission of delivering exceptional engineering solutions."

mirabal* extends its gratitude to ACEC New York and the esteemed panel for this recognition.
